

Loss prevention poster series for MSMI Members

ENGINE ROOM CLEANLINESS

Safe work is MSMI's loss prevention initiative to promote good practice and safe systems of work on board ship.

Safe work means that watchkeepers should be competent and properly trained for the tasks to be performed.

Safe work means watchkeepers should adopt proper work planning procedures and implement a strict cleanliness regime.

Safe work means that watchkeepers should maintain critical machinery in accordance with manufacturers requirements and company procedures.

Safe work requires the performance of regular checks on engine room machinery, monitoring equipment and the completion of records.

Safe work practices will reduce the number of incidents and accidents.
