

Loss prevention poster series for MSMI Members

## ENGINE SERVICE

**Safe work** is MSMI's loss prevention initiative to promote good practice and safe systems of work on board ship.

**Safe work** means not attempting engine servicing without proper planning and supervision.

**Safe work** means not attempting engine servicing without the proper tools or expertise.

**Safe work** requires good risk assessment when re-assembling systems.

**Safe work** means not omitting analysis of lubrication oil at recommended intervals and always considering analysis after re-assembly following failure.

**Safe work practices will reduce the number of incidents and accidents.**
